This presentation has been prepared in compliance with English law and English courts will have exclusive jurisdiction over any disputes arising from or connected with this presentation.

KEY HIGHLIGHTS

- Strong financials despite impact of stoppages
- Prioritisation of employee health above business continuity
- Revenue: \$622m
- AISC at \$12.8/oz below revised 2020 guidance
- EBITDA: \$271m
- Strong cash balance: \$232m
- Year-end net cash position for first time in 8 years
- Final dividend of 2.335cps (\$12m) with total dividends for 2020 of \$33m
- 2020 brownfield programme 75% complete; \$34m 2021 programme already started
- Portfolio optionality in early stage projects and Biolantanidos development

COVID-19: RESPONSE UPDATE

- Prioritisation of employee health over business continuity
- Communication campaigns in place since first Peruvian virus cases
- Strict health/distancing protocols implemented at all mines
- Full medical teams in place at operations with additional equipment acquired
- Additional community health and educational support & donations provided
- IT based system developed to monitor progress of Covid cases and aid shift-changes
- 2021 update:
 - Maintaining strict Covid-19 Hochschild protocols
 - Reinforcing medical equipment and personnel
 - Use of antigen tests prior to transfer to operations
 - Maintaining mental health support for employees and families
 - Reinforcing relationships with local medical facilities
 - Ready to respond to opportunity to vaccinate personnel and communities

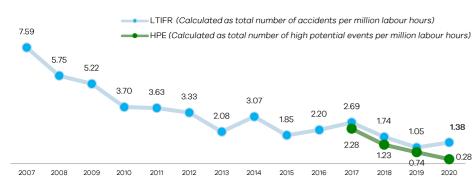

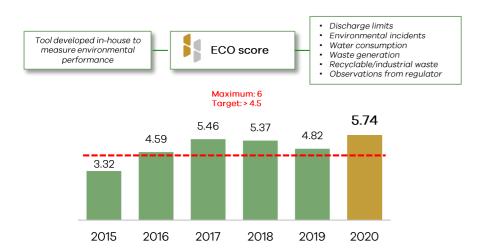

2020 ESG PERFORMANCE

- LTIFR remains close to historical low
- "High Potential Events" (HPE) rate fell to 0.28
- Safety 2.0 programme launched
- ECO score equivalent for safety due to be launched soon: "SEGU" score

- Strong 2020 environmental performance: ECO Score of 5.74
- Highest score since inception in 2015
- Inmaculada: 5.88
- Pallancata: improved from 2.88 to 5.25
- ECO Score won "Sustainable Development Award" (Peruvian National Mining, Oil and Energy Association)
- 2020 ECO Score results to be certified by E&Y

2020 FULL YEAR RESULTS

	Adjusted EBITDA	270.9	343.3	(72.4)

- Revenue decreased by 18% due to Covid-19 stoppages expected lower volumes compensated by significantly higher prices
- Gross profit similar to 2019 reflecting higher prices despite inclusion in CoS of \$46.5m operational fixed costs during stoppages and ramp-up
- Admin expenses lower due to savings initiatives
- Selling expenses down due to stoppage in Argentina where export taxes are levied
- Exploration expenses reduced brownfield/greenfield programmes delayed until H2 and completion in early 2021
- Other expenses mainly include increase of mine closure provision and lower care and maintenance expenses at idle assets
- Effective rate tax of 57.8%:
 - Impact of devaluation in Peru/Argentina affecting deferred income tax
 - Royalties/Special Mining tax
 - 31% net of royalties/devaluation impact
- Key exceptional items:
 - \$31.2m of direct Covid-19 response initiatives
 - \$8.3m reversal of impairment of San Jose

COVID COST IMPACT

Fixed costs during stoppages & reduced capacity

\$m	
Personnel	(32.1)
3 rd party services	(8.7)
Supplies	(1.7)
Depreciation & Amortisation	(1.8)
Others	(2.2)
Total	(46.5)

Exceptional Covid-19 response initiatives

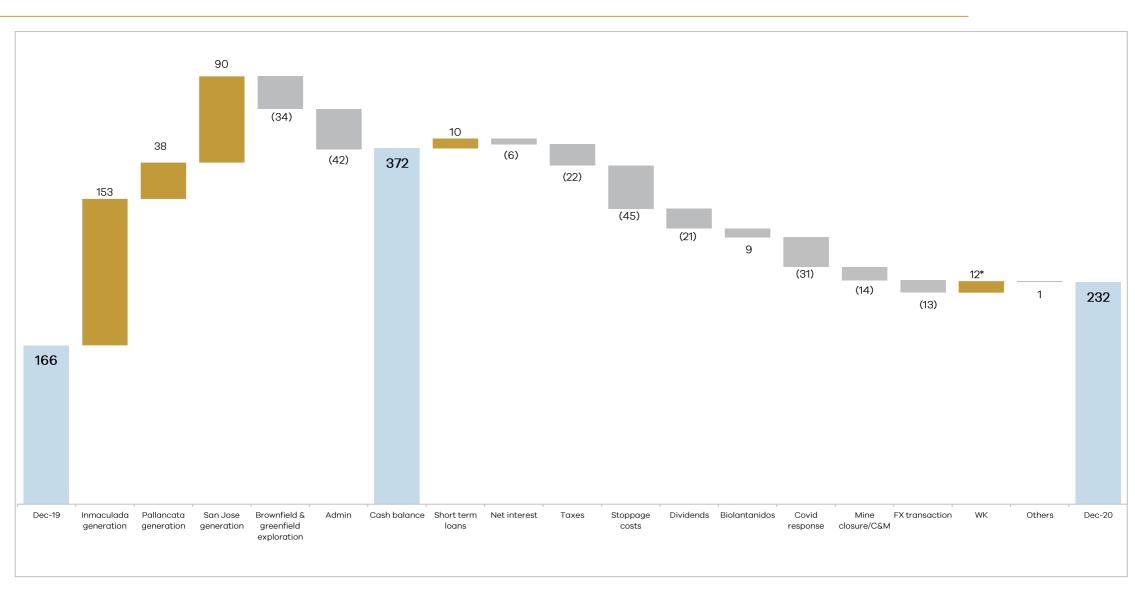

\$m	Peru	Argentina	Total
Personnel	4.6	-	4.6
Donations	1.4	O.1	1.5
3rd party services	16.9	5.7	22.6
Others	2.5	O.1	2.6
Total	25.4	5.9	31.2

2021 outlook

- Expected to reduce significantly in 2021 due to:
 - Peruvian government not expected to mandate further industry stoppages
 - IT systems developed to track employees
 - More effective/rapid/lower cost testing
 - Reduced expenses for quarantine lodging
 - Guidance for 2021: \$10-15m

BALANCE SHEET - EVOLUTION OF 2020 CASH BALANCE

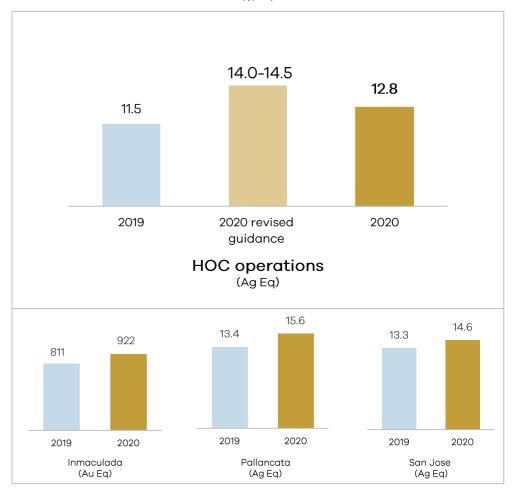

COSTS

AISC lower than guidance due to:

- Lower production costs resulting from higher proportion of mechanised mining methods
- Postponed capex mainly mine developments
- Exploration programmes delayed until H2 and completion in early 2021
- Higher grades than expected in San Jose
- AISC does not include fixed costs during stoppages & ramp-up + exceptional Covid-19 response initiatives

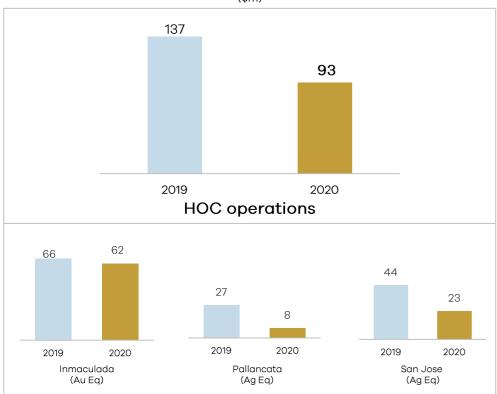

All in sustaining costs* (\$/oz)

CAPITAL EXPENDITURE & EXPLORATION

Operations sustaining & development capex

- Capex postponed due to stoppages, partially offset by the first stage of Inmaculada's tailings dam capacity expansion
- Deferrals mainly include mine development and infill drilling (already included in 2021 guidance)
- Operations capex do not include Biolantanidos: \$9m

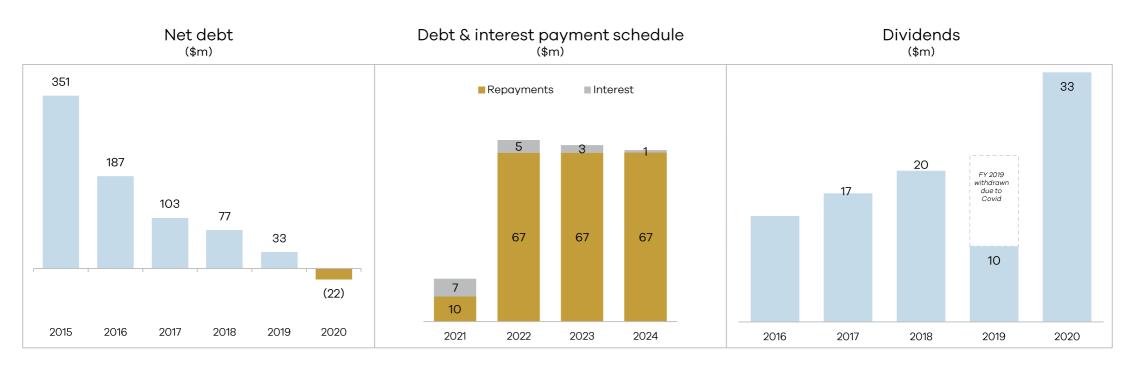

Exploration expenditure

	(\$m)	
Operation	2019	2020
Brownfield		
Inmaculada	9.9	4.2
Pallancata	7.2	4.7
San Jose	9.7	9.7
Total	26.8	18.6
Greenfield	10.5	8.6
Personnel & other	6.7	6.8
TOTAL	44.0	33.9
Opex Capex	38.0 6.0	32.2 1.7

STRONG FINANCIAL POSITION

- Robust balance sheet
- Cash balance: \$232m
- Net cash: \$22m
- \$21m interim dividend paid in Dec 2020
- Final dividend declared: \$12m

2020 FULL YEAR RESULTS

Ignacio Bustamante, CEO

OPERATIONAL UPDATE

- All mines currently operating normally
- Strong recovery despite Covid stoppages
- 2020 revised production and cost targets achieved
- 2021 guidance:
 - Production: 31-32moz/360,000-372,000oz (Ag Eq/Au Eq)
 - 4moz Ag hedged @ \$27.1/oz for 2021 to protect cashflows from existing resources at Pallancata
 - AISC: \$14.1-14.5/\$1,210-\$1,250 per ounce (Ag Eq/Au Eq)
 - Capex: \$120m-130m
 - Brownfield exploration: \$34m
 - Greenfield exploration: \$11m; BioLantanidos: \$14m
 - \$7m: ore sorting pilot plant at Inmaculada

2021 guidance

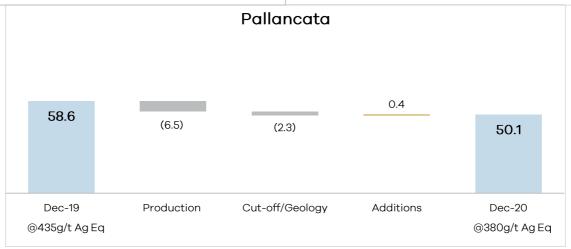

Production	Oz Au Eq	Moz Ag Eq	
Inmaculada	223,000-228,000	19.2-19.6	
Pallancata	63,000-65,000	5.4-5.6	
San Jose (100%)	74,000-79,000	6.4-6.8	
Total	360,000-372,000	31.0-32.0	
AISC	\$/oz Au Eq	\$/oz Ag Eq	
Inmaculada	1,040-1,080	12.1-12.5	
Pallancata	1,440-1,480	16.8-17.2	
San Jose	1,370-1,400	15.9-16.3	
Total	1,210-1,250	14.1-14.5	
Capex	Sustaining & development expenditure (\$m)		
Inmaculada	67-72		
Pallancata	6-8		
San Jose (100%)	47-50		
Total	120-130		
Exploration	\$m		
Brownfield	34		
Greenfield	11		
Biolantanidos	14		

RESOURCES 2020 VERSUS 2019

moz Ag Eq*

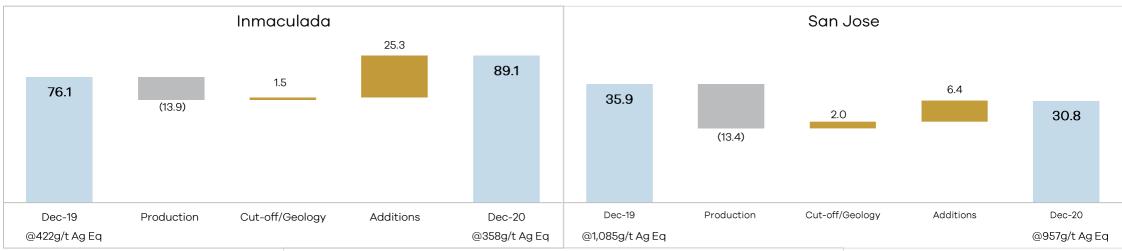

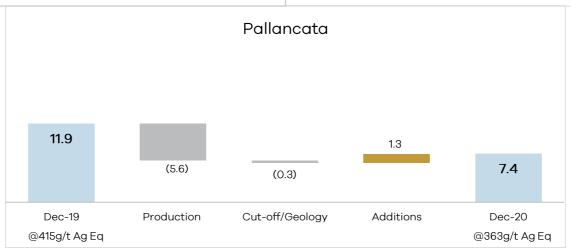

RESERVES 2020 VERSUS 2019

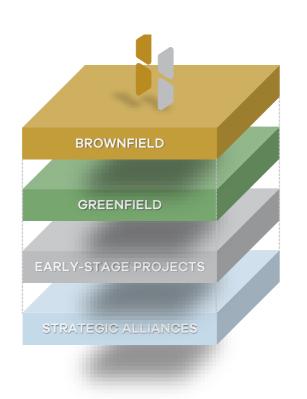

moz Ag Eq*

GROWTH STRATEGY

LOM increases
Improve quality of resources
Spare capacity available
Streamlining portfolio
Staking properties
Progressing drill-ready projects
Optimising early-stage projects
Further drilling
Advancing Biolantanidos deposit
Early-stage

Control (Acquisition/JVs)

Geological upside

ROIC:12-15%

Focus on exploration-led growth

BROWNFIELD DRILLING CAMPAIGNS ACROSS THE REGION

2021 programmes:

Inmaculada

Pallancata

Cochaloma

Palca

Corina

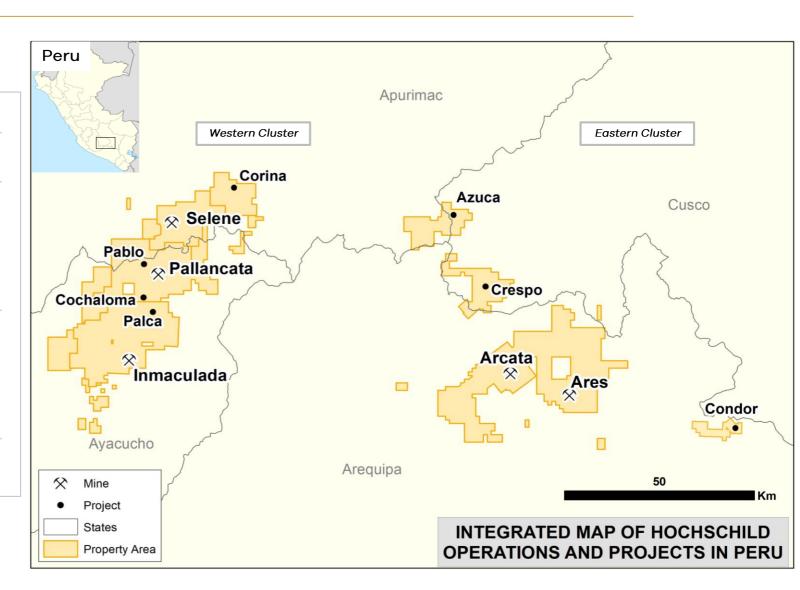

Crespo

Arcata

Ares

Condor

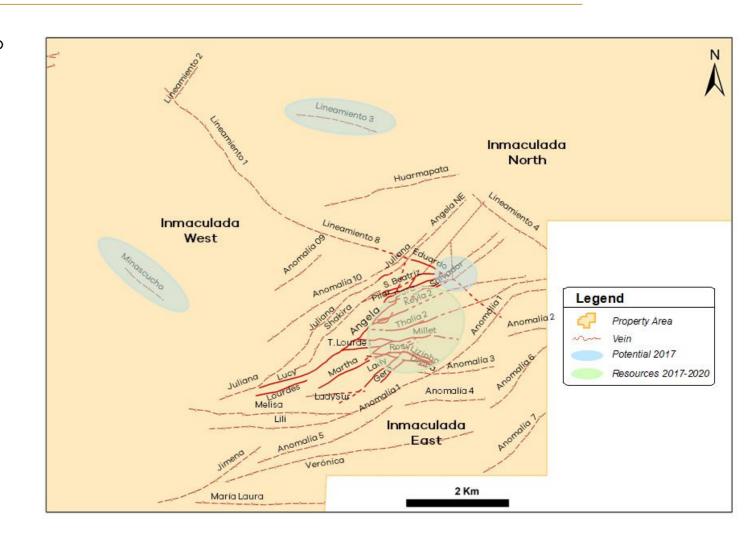

San Jose (Argentina)

INMACULADA EXPLORATION

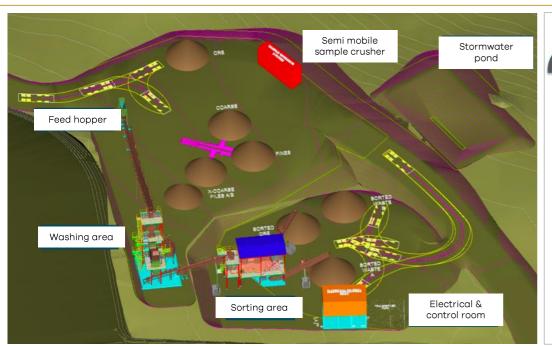

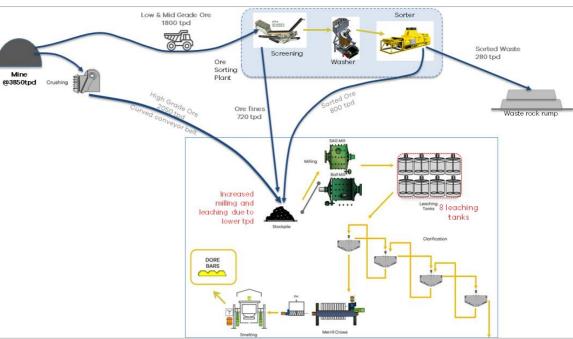

- Young vein district with potential to incorporate further new resources from large land package
- 2020 drilling focused on Shakira,
 Juliana, Angela North and minor
 veins around main Angela vein
- 35,000m programme in 2021
- Focus on:
 - Angela North
 - Lineamiento 3
 - Minascucho
- 2020 drill programme resulted in addition of:
 - 25.3moz Ag Eq of reserves
 - 27.0moz Ag Eq of resources

ORE SORTING PILOT PLANT

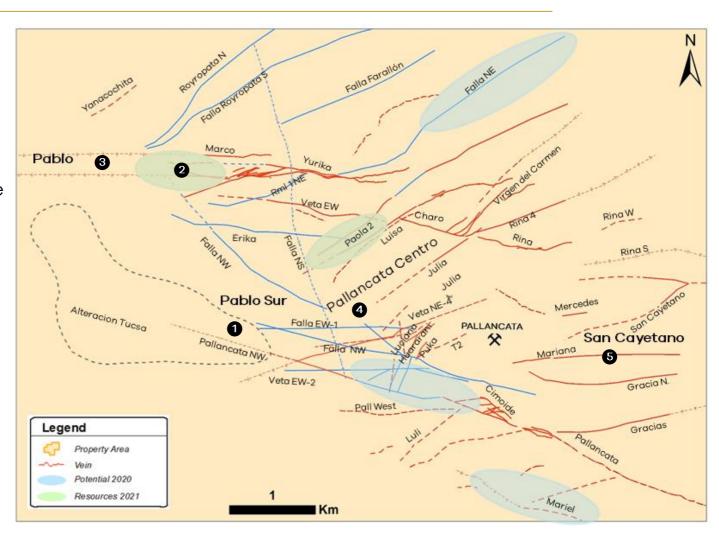

- \$7m project approved to construct ore sorting pilot plant at Inmaculada
- Set for completion towards the end of 2021
- Strong potential to:
 - Improve recoveries
 - Increase size of Inmaculada plant
 - Improve economics of Hochschild's near term projects

Ore sorting pilot plant to be operational end Q4

PALLANCATA EXPLORATION

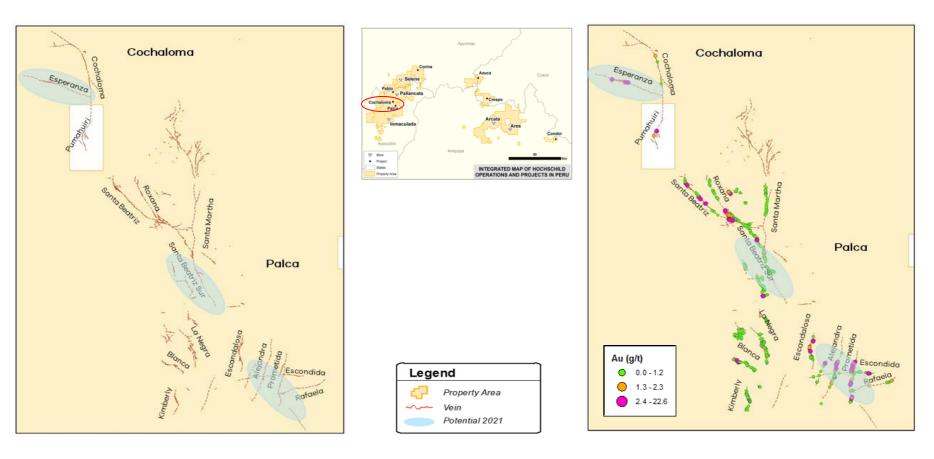

- Short LOM strategy of adding economic ounces close to current operations
- 2020 surface drilling intersected structures but without economic value
- Good targets remain for 2021:
 - 1 Pablo South (underway)
 - 2 Pablo Piso
 - 3 Pablo extension
 - 4 Pallancata Central
 - 5 San Cayetano (2022)
- Significant potential to add long-term resources from regional projects
 - Corina
 - Cochaloma
 - Palca

PALLANCATA: PALCA AND COCHALOMA

- Palca: drilling has found resources at Escondida vein; drilling will continue to add inferred resources; drilling for potential in Santa Beatriz, Roxana & Santa Marta veins
- Cochaloma: Esperanza Vein/Cochaloma vein drilling started in Jan 2021 programme finished in April 2021

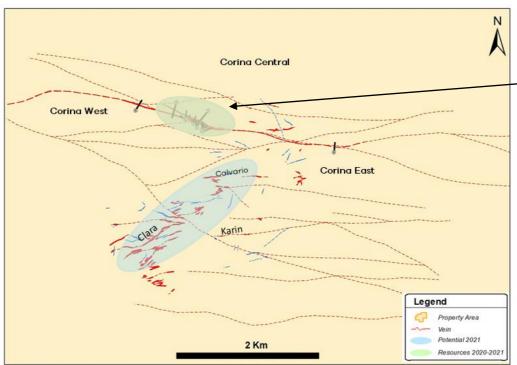

Drilling continuing in 2021 at exciting Cochaloma & Palca targets

CORINA

- Low sulphidation epithermal gold/silver target close to Selene plant
- 2019/2020 drilling delivering significant gold-silver intercepts
- Initial maiden resource of 8.9moz @329 Ag Eq g/t, 12.4m width
- 2021 programme will focus on Corina East, Calvario, Clara, Karin areas

2019/20 selected intercepts

Drill Hole	True width (m)	Au (g/t)	Ag (g/t)
2019			
COR19005	3.50	8.97	32.00

2020:

 Drilled San Jose vein extensions, Saavedra West, Telken, Rosalia

2021 exploration focused on:

- High grade areas close to current mine (e.g. Isabel-Luisa veins)
- Saavedra East including promising Betania vein structure
- Titan target to the south west of San Jose
- Continuing to explore Telken area next to Newmont's Cerro Negro

Promising recent drill results show potential to add further high grade resources

ADDITIONAL OPPORTUNITIES TO DELIVER UPSIDE

Developing options across the Americas

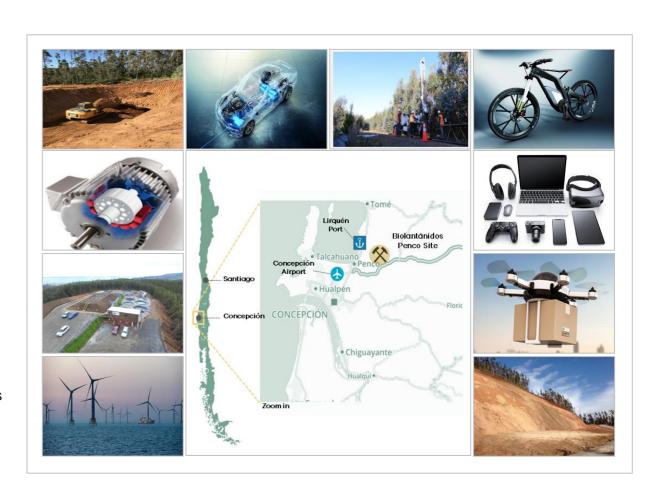

BIOLANTANIDOS RARE EARTHS PROJECT

- Biolantanidos (Chile): one of the few heavy rare earth projects in Western World
- Ion Adsorption Clay deposits (mostly in China) are lowest cost sources of rare earths globally
- Special concentration of high demand rare earths Terbium, Dysprosium, Praseodymium and Neodymium
- Low technical risk simple mining and extraction process
- Environmentally friendly process to extract rare earths with no tailings dam
- Low capex, modular processing facility allowing for staged growth
- World class investment jurisdiction with long mining history
- Key management personnel in place

2021 goals

- Complete metallurgical optimisation
- Continue to advance environmental permitting process
- Complete equipment testing
- Increase projects resources with already identified brownfield targets
- Deliver revised feasibility study (end H1 2021)

HOCHSCHILD REMAINS UNDERVALUED VS PEER GROUP

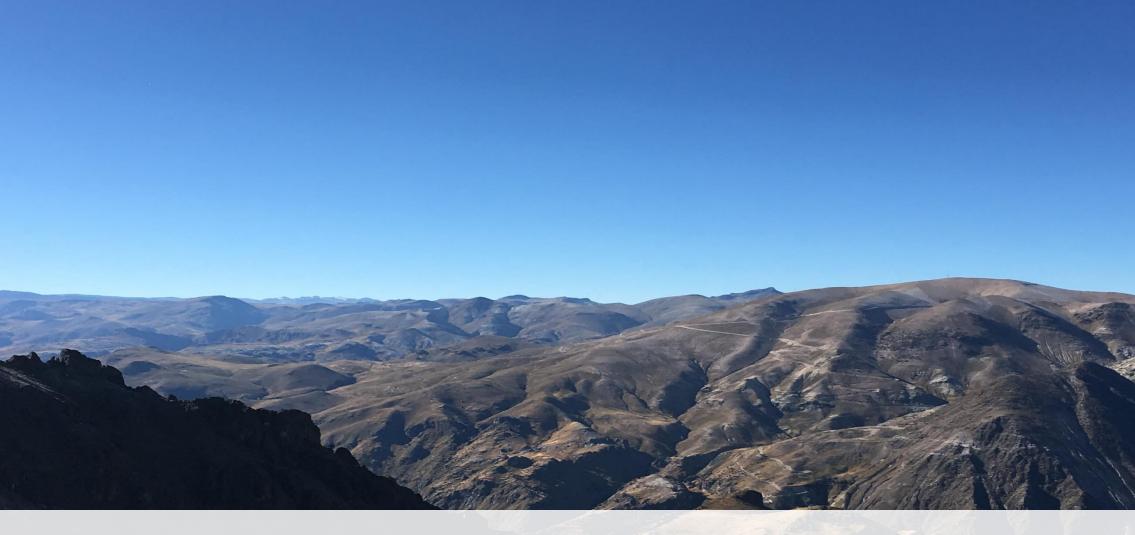

Source: FactSet as of 9 Feb 2021

CONCLUSION

- Strong performance despite material Covid stoppages
- Revised production targets achieved with better than expected costs
- Significant free cashflow generation net cash position
- \$21m interim dividend paid in Dec; further \$12m final dividend announced
- Significant 2021 brownfield programme scheduled
- Exciting Biolantanidos rare earths project close to feasibility stage
- Attractive optionality in Greenfield, Early-stage projects and M&A strategy
- Opportunity to generate substantial shareholder return
